

Interakcije Split Interactions
Research and Education
19 - 20 March 2009

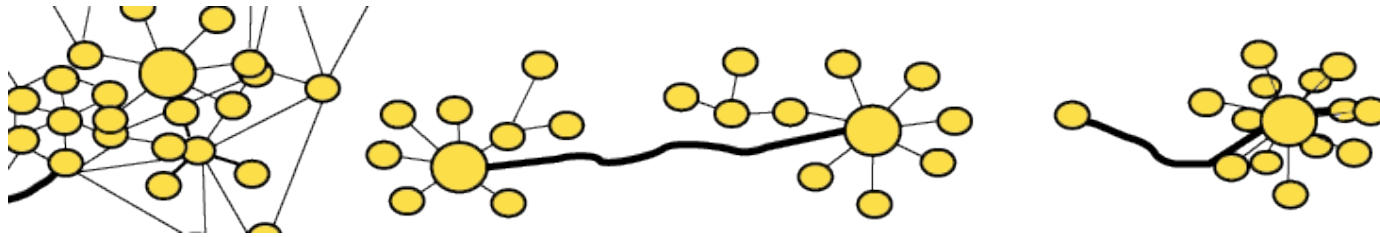

Department of Visual, Communications Design,
Arts Academy, University of Split.

Marilyn Lennon

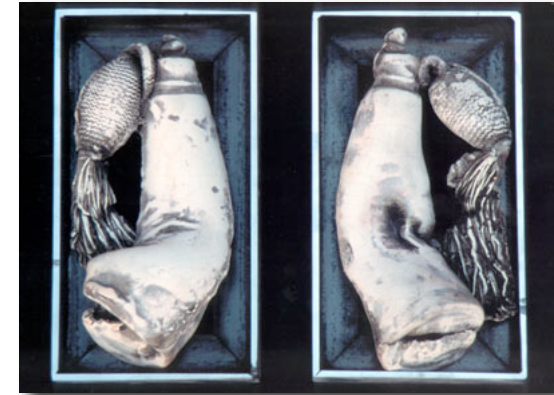

Limerick School of Art and Design
Interaction Design Centre

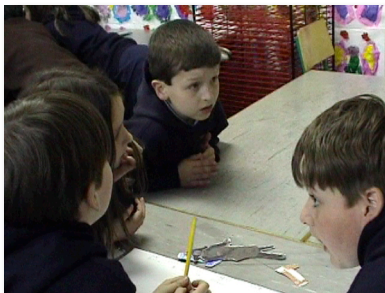

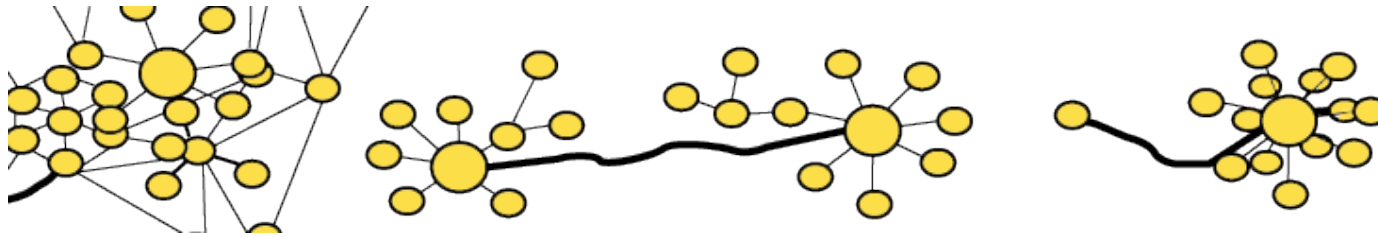

Background in Ceramics
Masters of Art
National College of Art and Design Ireland

Masters of Science in Interactive Media
University of Limerick

PhD Interaction Design, Dept. Of Computer Science and
Information Systems, College of Informatics and
Electronics,
University of Limerick

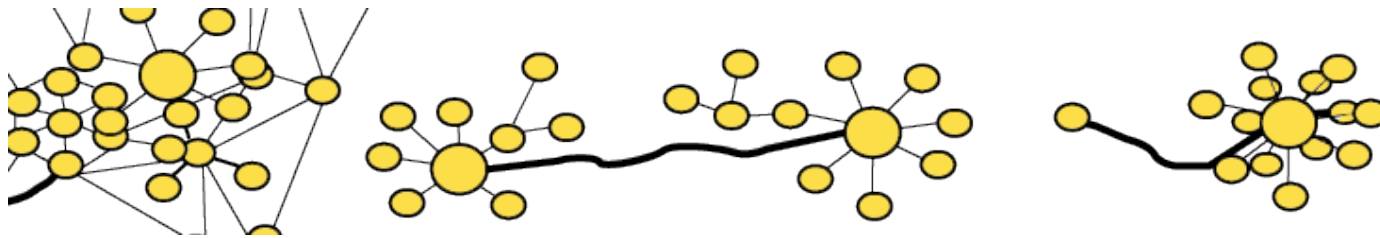

The Interaction Design Centre, University of limerick

The Interaction Design Centre is an interdisciplinary research group (approx 25 researchers) in the Department of Computer Science and Information Systems focused on the design, use and evaluation of information and communications technologies.

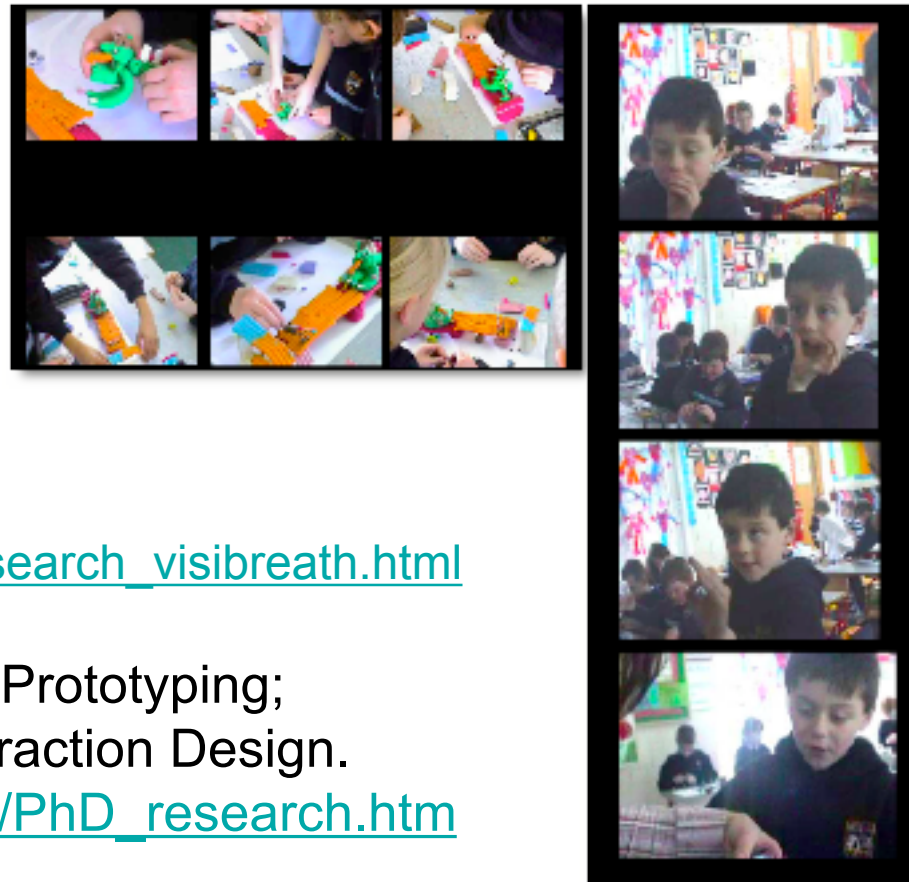

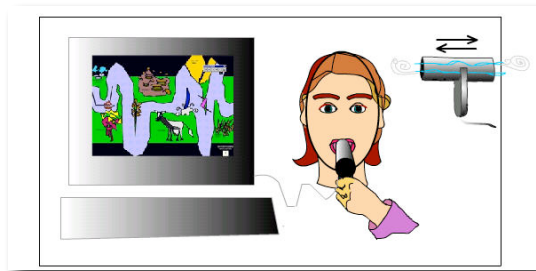

The focus is on human-centred design, with a strong interest in collaborative settings, exploring the design and use of novel interactive and communicative artefacts to support human activities.
